Dear Stephen,

Having engaged Mteq to help support the re-engineering of our Head Office Finance processes with the aim of delivering accuracy, efficiency and substantial cost savings, I am pleased that the outcome has achieved what you identified in the P4i process.

In addition the project has successfully integrated several existing internal initiatives which were previously progressing in isolation. The additional focus and resource which Mteq have provided has accelerated these projects, which will deliver substantial benefits across the business.

You have developed excellent working relationships across all departments and have been sympathetic to the workload and pressures that my team have been under, showing flexibility in your approach to accommodate this. I am sure that my team have benefited from the support they have received in delivering their individual objectives.

Yours sincerely

Jog Dhody
Chief Financial Officer
